

How to Scan your Photo?

The scan of your photo must be:

- In color. Black and white and monochrome photos may be rejected.
- In jpg or jpeg format.
- Equal to or less than 100 KB and more than 50 KB
- Vertical in such a way that its height is greater than its width.
- Of a resolution of 400 (minimum width) by 600 (minimum height) pixels.

- Taken within the last 6 months in a way that matches your current appearance.
- completely plain with light background.
- In such a way that your face is directly facing the camera.
- Without any special facial expression and with your eyes open.
- Taken in the clothes that you wear on a daily basis.
- Without a hat. The face must be clearly visible and head coverings such as scarves must not cover or cast shadows on any part of the face.

Note that:

- Photos in uniform will not be accepted, except for religious clothing that is worn on a daily basis.
- The use of headphones, wireless hands-free devices, and similar items is not acceptable in the photo.
- Photos scanned from passports, driver's licenses, etc. will not be accepted. In addition, photos taken using mobile phones or similar low-quality devices will be rejected.
- The use of glasses is not acceptable in the photo except in specific medical conditions. If glasses are worn for medical reasons, the following must be observed:
 - The frame of the glasses must not cover the eyes.
 - The glasses must not obscure or obscure the eyes.
 - Any shadow or reflection of the flash light from the lens of the glasses that obscures the eyes will not be acceptable.
